

Q: What is the capital of France?

A: Paris — known for the Eiffel Tower and the Louvre Museum.

Q: Who painted the Mona Lisa?

A: Leonardo da Vinci — Italian Renaissance artist.

Q: What is the largest ocean in the world?

A: Pacific Ocean — covers about one-third of Earth’s surface.

Q: How many continents are there on Earth?

A: Seven — Asia, Africa, North America, South America, Antarctica, Europe, and Australia.

Q: What is the smallest planet in our solar system?

A: Mercury — closest to the Sun and smallest in size.

Q: Who discovered gravity?

A: Isaac Newton — after observing an apple fall from a tree.

Q: Which gas do plants absorb from the atmosphere?

A: Carbon dioxide — used during photosynthesis.

Q: What is the national animal of Pakistan?

A: Markhor — a wild goat species found in northern Pakistan.

Q: How many players are there in a cricket team?

A: Eleven — per side on the field.

Q: What is H₂O commonly known as?

A: Water — two hydrogen and one oxygen atom.

Q: Who was the first man to walk on the moon?

A: Neil Armstrong — in 1969 during Apollo 11 mission.

Q: Which country is known as the Land of the Rising Sun?

A: Japan — because the sun rises first there in Asia.

Q: What is the chemical symbol of gold?

A: Au — derived from Latin “Aurum”.

Q: Which planet is known as the Red Planet?

A: Mars — due to iron oxide dust on its surface.

Q: What is the currency of the United Kingdom?

A: Pound Sterling (£).

Q: What is the largest mammal on Earth?

A: Blue whale — can reach over 30 meters long.

Q: Who invented the telephone?

A: Alexander Graham Bell — patented it in 1876.

Q: Which element is essential for human breathing?

A: Oxygen — vital for respiration.

Q: What is the hardest natural substance on Earth?

A: Diamond — made of carbon atoms.

Q: Which organ in the body purifies blood?

A: Kidney — filters waste and extra fluid.

Q: What is the capital of Canada?

A: Ottawa — located in Ontario province.

Q: Who wrote “Romeo and Juliet”?

A: William Shakespeare — English playwright.

Q: Which bird cannot fly?

A: Ostrich — largest living bird.

Q: What is the process of plants making food called?

A: Photosynthesis — using sunlight, water, and CO₂.

Q: How many bones are in the adult human body?

A: 206 — connected by joints.

Q: What is the fastest land animal?

A: Cheetah — can run up to 120 km/h.

Q: Which planet is closest to Earth?

A: Venus — Earth’s nearest planetary neighbor.

Q: What is the national flower of Pakistan?

A: Jasmine — symbol of purity and simplicity.

Q: In which year did World War II end?

A: 1945 — after Germany and Japan surrendered.

Q: Who was the founder of Microsoft?

A: Bill Gates — co-founded in 1975.

Q: What is the largest desert in the world?

A: Sahara Desert — in North Africa.

Q: What is the boiling point of water in Celsius?

A: 100°C — at standard atmospheric pressure.

Q: Who wrote “The Theory of Relativity”?

A: Albert Einstein — in the early 1900s.

Q: What is the longest river in the world?

A: Nile River — flows through Egypt and Sudan.

Q: What is the largest planet in the solar system?

A: Jupiter — a gas giant with 79 moons.

Q: Which organ pumps blood in the human body?

A: Heart — muscular organ that circulates blood.

Q: Who was the founder of Pakistan?

A: Quaid-e-Azam Muhammad Ali Jinnah.

Q: What is the main ingredient in bread?

A: Flour — made from ground wheat.

Q: What is the freezing point of water in Celsius?

A: 0°C — at standard atmospheric conditions.

Q: Which animal is known as the Ship of the Desert?

A: Camel — adapted for desert travel.

Q: How many colors are in a rainbow?

A: Seven — Red, Orange, Yellow, Green, Blue, Indigo, Violet.

Q: Which instrument measures temperature?

A: Thermometer.

Q: What is the largest island in the world?

A: Greenland.

Q: Who discovered penicillin?

A: Alexander Fleming — in 1928.

Q: What gas do humans exhale?

A: Carbon dioxide.

Q: What is the capital of Italy?

A: Rome.

Q: What is the tallest mountain in the world?

A: Mount Everest — 8,848 meters high.

Q: What is the main source of energy for Earth?

A: The Sun.

Q: What is the process of water turning into vapor?

A: Evaporation.

Q: Which country invented paper?

A: China — around 100 BCE.

QQ: What is the largest country in the world by area?

A: Russia — covers more than 17 million square kilometers across Europe and Asia.

Q: Who was the first President of the United States?

A: George Washington — served from 1789 to 1797.

Q: What is the most widely spoken language in the world?

A: English — used globally as a first or second language.

Q: What is the chemical symbol for oxygen?

A: O — essential for respiration and combustion.

Q: Which planet is known for its rings?

A: Saturn — has prominent icy rings visible from Earth.

Q: What is the largest internal organ in the human body?

A: Liver — processes nutrients and detoxifies chemicals.

Q: Who invented the light bulb?

A: Thomas Edison — perfected it in 1879.

Q: What is the square root of 81?

A: 9 — because $9 \times 9 = 81$.

Q: In which continent is Egypt located?

A: Africa — though part lies in Asia (Sinai Peninsula).

Q: What is the national language of Pakistan?

A: Urdu — symbolizes national unity.

Q: What is the main gas found in the air we breathe?

A: Nitrogen — makes up about 78% of Earth's atmosphere.

Q: Who discovered America?

A: Christopher Columbus — in 1492.

Q: What is the largest bone in the human body?

A: Femur — the thigh bone.

Q: Which organ helps in breathing?

A: Lungs — exchange oxygen and carbon dioxide.

Q: Who was the first female Prime Minister of Pakistan?

A: Benazir Bhutto — elected in 1988.

Q: What is the chemical symbol for iron?

A: Fe — from the Latin “Ferrum”.

Q: What is the main ingredient in guacamole?

A: Avocado — mashed with lime and seasoning.

Q: Which continent is known as the Dark Continent?

A: Africa — named during European exploration.

Q: What does DNA stand for?

A: Deoxyribonucleic Acid — carries genetic information.

Q: What is the largest bird in the world?

A: Ostrich — can't fly but runs very fast.

Q: Who painted “The Starry Night”?

A: Vincent van Gogh — a Dutch post-impressionist artist.

Q: What is the capital of Australia?

A: Canberra — not Sydney or Melbourne.

Q: How many sides does a hexagon have?

A: Six.

Q: What is the currency of Japan?

A: Yen.

Q: What is the largest planet's moon called?

A: Ganymede — moon of Jupiter.

Q: Which animal is known for its black and white stripes?

A: Zebra.

Q: Who discovered electricity (by kite experiment)?

A: Benjamin Franklin — 1752.

Q: What is the most common blood type?

A: O positive.

Q: Who was the first man to climb Mount Everest?

A: Sir Edmund Hillary with Tenzing Norgay — in 1953.

Q: Which gas is known as laughing gas?

A: Nitrous oxide (N₂O).

Q: What is the smallest bone in the human body?

A: Stapes — in the ear.

Q: Which instrument has keys, pedals, and strings?

A: Piano.

Q: What is the study of stars and planets called?

A: Astronomy.

Q: What is the national fruit of Pakistan?

A: Mango.

Q: Who invented the airplane?

A: The Wright Brothers — Orville and Wilbur in 1903.

Q: What is the process of liquid changing into solid called?

A: Freezing.

Q: How many degrees are there in a circle?

A: 360°.

Q: Who wrote “Harry Potter”?

A: J.K. Rowling.

Q: What color is chlorophyll?

A: Green — gives plants their color.

Q: What is the smallest unit of life?

A: Cell.

Q: What is the currency of China?

A: Yuan (Renminbi).

Q: What is the main language of Brazil?

A: Portuguese.

Q: Which is the coldest place on Earth?

A: Antarctica.

Q: What is the largest ocean animal?

A: Blue whale.

Q: What is the capital of India?

A: New Delhi.

Q: Who was the first person to reach the South Pole?

A: Roald Amundsen — in 1911.

Q: What is the main source of vitamin D?

A: Sunlight — helps body produce vitamin D.

Q: What is the capital city of Germany?

A: Berlin.

Q: Who developed the polio vaccine?

A: Jonas Salk — in 1950s.

Q: What is the unit of power?

A: Watt — named after James Watt.

Q: What is the national flower of Japan?

A: Cherry Blossom — symbolizes beauty and renewal.

Q: Which planet is known as the “Morning Star”?

A: Venus — visible just before sunrise.

Q: What is the capital of Saudi Arabia?

A: Riyadh — largest city and administrative center.

Q: Who wrote the novel 1984?

A: George Orwell — a dystopian classic published in 1949.

Q: What is the process of liquid changing into gas called?

A: Evaporation — occurs when heat turns liquid into vapor.

Q: What is the longest bone in the human body?

A: Femur — the thigh bone connecting hip to knee.

Q: Who painted “The Last Supper”?

A: Leonardo da Vinci — Italian Renaissance master.

Q: What is the capital of Russia?

A: Moscow — political and economic hub of the country.

Q: Which country is famous for the Great Wall?

A: China — built to protect against invasions.

Q: What is the largest animal in the world?

A: Blue whale — grows up to 30 meters long.

Q: Who invented the World Wide Web?

A: Tim Berners-Lee — created it in 1989.

Q: What is the main ingredient in sushi?

A: Rice — usually seasoned with vinegar.

Q: Which element has the symbol ‘Na’?

A: Sodium — a soft, reactive metal.

Q: How many teeth does an adult human have?

A: 32 — including wisdom teeth.

Q: What is the capital of Turkey?

A: Ankara — not Istanbul as many think.

Q: Who was known as the Iron Lady?

A: Margaret Thatcher — former UK Prime Minister.

Q: What is the smallest country in the world?

A: Vatican City — less than 1 square kilometer.

Q: What is the world’s largest coral reef system?

A: Great Barrier Reef — off Australia’s coast.

Q: Which continent has the most countries?

A: Africa — 54 recognized nations.

Q: What is the main gas in Earth’s atmosphere?

A: Nitrogen — about 78% of the air.

Q: Who was the first person in space?

A: Yuri Gagarin — Soviet astronaut in 1961.

Q: Which city is known as the City of Love?

A: Paris — due to its romantic charm.

Q: Which organ in the body produces insulin?

A: Pancreas — helps control blood sugar.

Q: What is the capital of South Korea?

A: Seoul — a major global tech hub.

Q: Which ocean lies between Africa and Australia?

A: Indian Ocean.

Q: Who wrote Pride and Prejudice?

A: Jane Austen — published in 1813.

Q: Which planet has the most moons?

A: Saturn — over 80 confirmed moons.

Q: What is the capital of Spain?

A: Madrid — located in central Spain.

Q: Who discovered radium?

A: Marie Curie — pioneer in radioactivity research.

Q: What is the largest country in Africa?

A: Algeria — by land area.

Q: What is the capital of Brazil?

A: Brasília — planned city inaugurated in 1960.

Q: What is the main ingredient of chocolate?

A: Cocoa beans — roasted and ground seeds.

Q: Which animal lays the largest eggs?

A: Ostrich.

Q: What is the capital of Egypt?

A: Cairo — largest city in Africa.

Q: Which planet is closest to the Sun?

A: Mercury.

Q: Who invented the printing press?

A: Johannes Gutenberg — in the 15th century.

Q: Which metal is liquid at room temperature?

A: Mercury — only metallic element in liquid form.

Q: What is the capital of Argentina?

A: Buenos Aires.

Q: Who discovered penicillin?

A: Alexander Fleming — in 1928.

Q: What is the capital of Italy?

A: Rome.

Q: Which planet is known for its red appearance?

A: Mars — due to iron oxide dust.

Q: Which bird is a universal symbol of peace?

A: Dove.

Q: Who invented dynamite?

A: Alfred Nobel — Swedish chemist.

Q: What is the capital of the USA?

A: Washington, D.C.

Q: Which gas is essential for photosynthesis?

A: Carbon dioxide.

Q: What is the capital of Germany?

A: Berlin.

Q: Who wrote Hamlet?

A: William Shakespeare.

Q: What is the world's fastest bird?

A: Peregrine Falcon — dives over 300 km/h.

Q: Which desert is the largest hot desert?

A: Sahara Desert.

Q: What is the world's most spoken native language?

A: Mandarin Chinese.

Q: What is the capital of Canada?

A: Ottawa — located between Ontario and Quebec.

Q: Who developed the theory of evolution?

A: Charles Darwin — published On the Origin of Species in 1859.

Q: Which is the longest river in Asia?

A: Yangtze River — flows across China.

Q: What is the national sport of Japan?

A: Sumo wrestling.

Q: What is the hardest substance found in nature?

A: Diamond — made of pure carbon.

Q: What is the capital of Norway?

A: Oslo — known for its fjords.

Q: Who was the first woman to win a Nobel Prize?

A: Marie Curie — in Physics, 1903.

Q: Which animal is known as the King of the Jungle?

A: Lion — symbol of strength and courage.

Q: What is the national fruit of India?

A: Mango — often called the “king of fruits.”

Q: Who invented the first computer?

A: Charles Babbage — designed the Analytical Engine.

Q: What is the largest organ in the human body?

A: Skin — covers and protects the body.

Q: Which continent is the driest?

A: Antarctica — coldest and driest region on Earth.

Q: What is the capital of Thailand?

A: Bangkok.

Q: What is the chemical symbol for silver?

A: Ag — from Latin “Argentum.”

Q: Which part of the human eye controls the amount of light entering?

A: Iris — adjusts the pupil size.

Q: What is the national currency of Russia?

A: Ruble.

Q: Which blood cells help fight infections?

A: White blood cells.

Q: Who was the first President of Pakistan?

A: Iskander Mirza — took office in 1956.

Q: What is the study of earthquakes called?

A: Seismology.

Q: What is the capital of Iran?

A: Tehran.

Q: Which continent is known as the “Frozen Continent”?

A: Antarctica.

Q: What is the most popular social media platform as of 2025?

A: Facebook — still leading by active users worldwide.

Q: What is the largest volcano in the world?

A: Mauna Loa — located in Hawaii.

Q: Which animal is known for its long neck?

A: Giraffe.

Q: What is the study of weather called?

A: Meteorology.

Q: Which country has the most islands?

A: Sweden — over 260,000 islands.

Q: What is the largest lake in the world?

A: Caspian Sea — technically the largest enclosed inland water body.

Q: Who is known as the Father of Computers?

A: Charles Babbage.

Q: What is the capital of New Zealand?

A: Wellington.

Q: What is the fastest aquatic animal?

A: Sailfish — can reach speeds up to 110 km/h.

Q: What is the smallest prime number?

A: 2 — the only even prime.

Q: What is the capital of Afghanistan?

A: Kabul.

Q: Who was the first man to discover electricity?

A: Benjamin Franklin — through his kite experiment.

Q: Which gas do humans need to breathe?

A: Oxygen.

Q: What is the capital of Sri Lanka?

A: Sri Jayawardenepura Kotte (administrative); Colombo (commercial).

Q: Which sea separates Europe and Africa?

A: Mediterranean Sea.

Q: What is the study of human behavior called?

A: Psychology.

Q: Which instrument measures air pressure?

A: Barometer.

Q: Who invented the radio?

A: Guglielmo Marconi.

Q: What is the capital of Bangladesh?

A: Dhaka.

Q: What is the main gas found in Earth's atmosphere?

A: Nitrogen — about 78%.

Q: Which organ purifies blood in the body?

A: Kidney.

Q: Who painted the “School of Athens”?

A: Raphael.

Q: What is the chemical symbol of potassium?

A: K.

Q: Which country gifted the Statue of Liberty to the USA?

A: France — in 1886.

Q: What is the world's tallest building as of 2025?

A: Burj Khalifa — Dubai, UAE.

Q: Which country is famous for tulips and windmills?

A: Netherlands.

Q: What is the world's smallest ocean?

A: Arctic Ocean.

Q: Who discovered the electron?

A: J.J. Thomson.

Q: What is the national animal of Australia?

A: Kangaroo

Q: Who wrote Hamlet?

A: William Shakespeare — one of his most famous tragedies.

Q: What is the capital of Saudi Arabia?

A: Riyadh.

Q: What is the boiling point of water at sea level?

A: 100°C or 212°F.

Q: What planet is known as the “Morning Star”?

A: Venus — visible just before sunrise.

Q: What is the capital of Egypt?

A: Cairo.

Q: Which country invented paper?

A: China — during the Han Dynasty.

Q: What does “HTTP” stand for?

A: HyperText Transfer Protocol.

Q: Which bird can mimic human speech?

A: Parrot.

Q: What is the capital of Malaysia?

A: Kuala Lumpur.

Q: Who discovered penicillin?

A: Alexander Fleming — in 1928.

Q: Which planet has the most moons?

A: Saturn — over 140 known moons.

Q: What is the largest mammal on Earth?

A: Blue whale.

Q: What is the main ingredient in bread?

A: Flour.

Q: What is the capital of Sweden?

A: Stockholm.

Q: Who painted the Mona Lisa?

A: Leonardo da Vinci.

Q: What is the chemical symbol for carbon?

A: C.

Q: Which animal lays eggs but is a mammal?

A: Platypus.

Q: What is the capital of Iraq?

A: Baghdad.

Q: What color do you get when you mix red and blue?

A: Purple.

Q: What is the largest desert in the world?

A: Sahara Desert.

Q: Who invented the light bulb?

A: Thomas Edison.

Q: What is the capital of Turkey?

A: Ankara.

Q: What organ in the body produces insulin?

A: Pancreas.

Q: What is the most widely spoken language in the world?

A: English — as of 2025 by total speakers.

Q: What is the capital of Kenya?

A: Nairobi.

Q: Who wrote Pride and Prejudice?

A: Jane Austen.

Q: What is the capital of Argentina?

A: Buenos Aires.

Q: What is the largest animal on land?

A: African elephant.

Q: What is the symbol for gold?

A: Au.

Q: Which country is known as the Land of the Rising Sun?

A: Japan.

Q: What is the process of plants making food called?

A: Photosynthesis.

Q: Who was the first person to step on the Moon?

A: Neil Armstrong — in 1969.

Q: What is the capital of Nepal?

A: Kathmandu.

Q: What is the world’s most popular search engine?

A: Google.

Q: What is the capital of Portugal?

A: Lisbon.

Q: Who is known as the Father of Geometry?

A: Euclid.

Q: What is the largest country by land area?

A: Russia.

Q: What is the main source of energy for the Earth?

A: The Sun.

Q: What is the capital of Chile?

A: Santiago.

Q: What is H2O commonly known as?

A: Water.

Q: Who painted the Starry Night?

A: Vincent van Gogh.

Q: Which planet is closest to the sun?

A: Mercury.

Q: What is the capital of South Korea?

A: Seoul.

Q: What is the chemical symbol for iron?

A: Fe.

Q: Who invented the telephone?

A: Alexander Graham Bell.

Q: What is the national flower of Pakistan?

A: Jasmine.

Q: What is the capital of Nigeria?

A: Abuja.

Q: What is the fastest land animal?

A: Cheetah.

Q: What is the capital of Greece?

A: Athens.

Q: What is the smallest country in the world?

A: Vatican City.

Q: Which ocean is the largest?

A: Pacific Ocean.

Q: Who discovered gravity?

A: Isaac Newton.

Q: What is the capital of Indonesia?

A: Jakarta.

Q: What is the largest continent?

A: Asia.

Q: What gas do plants release during photosynthesis?

A: Oxygen.

Q: What is the capital of Spain?

A: Madrid.

Q: Who wrote The Odyssey?

A: Homer.

Q: What is the national bird of the USA?

A: Bald eagle.

Q: What is the capital of Vietnam?

A: Hanoi.

Q: What is the process of water vapor turning into liquid called?

A: Condensation.

Q: Who developed the first vaccine?

A: Edward Jenner — for smallpox.

Q: What is the capital of South Africa?

A: Pretoria (administrative).

Q: What is the chemical symbol for lead?

A: Pb.

Q: What is the main gas in the Sun?

A: Hydrogen.

Q: Who invented the airplane?

A: Wright brothers.

Q: What is the capital of Ireland?

A: Dublin.

Q: What part of the body controls balance?

A: Inner ear.

Q: What is the world's largest coral reef system?

A: Great Barrier Reef.

Q: What is the capital of Norway?

A: Oslo.

Q: Who discovered the circulation of blood?

A: William Harvey.

Q: What is the fastest bird?

A: Peregrine falcon.

Q: What is the capital of Denmark?

A: Copenhagen.

Q: Who invented the printing press?

A: Johannes Gutenberg.

Q: What planet is known as the Red Planet?

A: Mars.

Q: What is the capital of the Philippines?

A: Manila.

Q: What element does “O” represent?

A: Oxygen.

Q: Who was the first man to climb Mount Everest?

A: Sir Edmund Hillary.

Q: What is the capital of Finland?

A: Helsinki.

Q: What is the smallest bone in the human body?

A: Stapes — in the ear.

Q: What is the capital of Hungary?

A: Budapest.

Q: Who wrote The Republic?

A: Plato.

Q: What is the capital of Mexico?

A: Mexico City.

Q: What is the national flower of Japan?

A: Cherry blossom (Sakura).

Q: What is the capital of Switzerland?

A: Bern.

Q: What is the heaviest naturally occurring element?

A: Uranium.

Q: What is the capital of Belgium?

A: Brussels.

Q: Who discovered radium?

A: Marie Curie.

Q: What is the capital of Austria?

A: Vienna.

Q: What organ pumps blood through the body?

A: Heart.

Q: Who invented the World Wide Web?

A: Tim Berners-Lee.

Q: What is the capital of Pakistan?

A: Islamabad.

Q: What gas is essential for photosynthesis?

A: Carbon dioxide.

Q: What is the capital of Cuba?

A: Havana.

Q: Who discovered America?

A: Christopher Columbus.

Q: What is the largest ocean on Earth?

A: Pacific Ocean.

Q: What is the capital of Iceland?

A: Reykjavik.

Q: What is the longest bone in the human body?

A: Femur (thigh bone).

Q: What is the capital of Poland?

A: Warsaw.

Q: What organ helps you breathe?

A: Lungs.

Q: What is the capital of Canada?

A: Ottawa.

Q: Who was the first woman to go to space?

A: Valentina Tereshkova — in 1963.

Q: What is the capital of Morocco?

A: Rabat.

Q: What planet is known for its rings?

A: Saturn.

Q: What is the chemical symbol for sodium?

A: Na.

Q: Who wrote The Divine Comedy?

A: Dante Alighieri.

Q: What is the largest planet in our solar system?

A: Jupiter.

Q: What is the capital of Singapore?

A: Singapore — it's a city-state.

Q: What organ produces bile?

A: Liver.

Q: Who discovered the law of motion?

A: Isaac Newton.

Q: What is the capital of Ukraine?

A: Kyiv.

Q: What is the smallest unit of life?

A: Cell.

Q: What is the capital of Ethiopia?

A: Addis Ababa.

Q: Which planet is farthest from the Sun?

A: Neptune.

Q: Who was the first US President?

A: George Washington.

Q: What is the chemical symbol for zinc?

A: Zn.

Q: What is the capital of Lebanon?

A: Beirut.

Q: What is the powerhouse of the cell?

A: Mitochondria.

Q: Who painted The Last Supper?

A: Leonardo da Vinci.

Q: What is the capital of Scotland?

A: Edinburgh.

Q: What is the national animal of China?

A: Giant panda.

Q: What is the capital of Jordan?

A: Amman.

Q: What is the freezing point of water?

A: 0°C or 32°F.

Q: What is the capital of Peru?

A: Lima.

Q: Who discovered X-rays?

A: Wilhelm Conrad Roentgen.

Q: What planet is known as Earth's twin?

A: Venus.

Q: What is the capital of Qatar?

A: Doha.

Q: Who was the first woman to go to space?

A: Valentina Tereshkova — in 1963.

Q: What is the capital of Morocco?

A: Rabat.

Q: What planet is known for its rings?

A: Saturn.

Q: What is the chemical symbol for sodium?

A: Na.

Q: Who wrote The Divine Comedy?

A: Dante Alighieri.

Q: What is the largest planet in our solar system?

A: Jupiter.

Q: What is the capital of Singapore?

A: Singapore — it's a city-state.

Q: What organ produces bile?

A: Liver.

Q: Who discovered the law of motion?

A: Isaac Newton.

Q: What is the capital of Ukraine?

A: Kyiv.

Q: What is the smallest unit of life?

A: Cell.

Q: What is the capital of Ethiopia?

A: Addis Ababa.

Q: Which planet is farthest from the Sun?

A: Neptune.

Q: Who was the first US President?

A: George Washington.

Q: What is the chemical symbol for zinc?

A: Zn.

Q: What is the capital of Lebanon?

A: Beirut.

Q: What is the powerhouse of the cell?

A: Mitochondria.

Q: Who painted The Last Supper?

A: Leonardo da Vinci.

Q: What is the capital of Scotland?

A: Edinburgh.

Q: What is the national animal of China?

A: Giant panda.

Q: What is the capital of Jordan?

A: Amman.

Q: What is the freezing point of water?

A: 0°C or 32°F.

Q: What is the capital of Peru?

A: Lima.

Q: Who discovered X-rays?

A: Wilhelm Conrad Roentgen.

Q: What planet is known as Earth's twin?

A: Venus.

Q: What is the capital of Qatar?

A: Doha.

Q: What is the basic unit of heredity?

A: Gene.

Q: What is the capital of Zimbabwe?

A: Harare.

Q: Who was the first Prime Minister of India?

A: Jawaharlal Nehru.

Q: What is the capital of Finland?

A: Helsinki.

Q: Which gas is used for breathing at high altitudes?

A: Oxygen.

Q: What is the capital of Croatia?

A: Zagreb.

Q: What is the largest bone in the body?

A: Femur.

Q: Who is the author of Harry Potter?

A: J.K. Rowling.

Q: What is the capital of Sudan?

A: Khartoum.

Q: What instrument measures temperature?

A: Thermometer.

Q: Who discovered the theory of relativity?

A: Albert Einstein.

Q: What is the capital of Libya?

A: Tripoli.

Q: What organ helps in digestion of fats?

A: Liver (via bile).

Q: What is the capital of Syria?

A: Damascus.

Q: What is the hardest natural substance?

A: Diamond.

Q: Who is known as the Iron Lady?

A: Margaret Thatcher.

Q: What is the capital of Portugal?

A: Lisbon.

Q: What part of the brain controls memory?

A: Hippocampus.

Q: What is the capital of Czech Republic?

A: Prague.

Q: Who painted The Scream?

A: Edvard Munch.

Q: What organ removes toxins from the blood?

A: Liver.

Q: What is the capital of Iceland?

A: Reykjavik.

Q: Who was the founder of Microsoft?

A: Bill Gates.

Q: What is the largest internal organ in the body?

A: Liver.

Q: What is the capital of Ghana?

A: Accra.

Q: What is the study of ancient life called?

A: Paleontology.

Q: What is the capital of Venezuela?

A: Caracas.

Q: What is the unit of electric current?

A: Ampere.

Q: Who discovered the planet Uranus?

A: William Herschel.

Q: What is the capital of Hungary?

A: Budapest.

Q: What part of the body has the smallest bones?

A: Ear.

Q: What is the capital of Belarus?

A: Minsk.

Q: What is the study of stars called?

A: Astronomy.

Q: What is the capital of Philippines?

A: Manila.

Q: Who was the founder of Facebook?

A: Mark Zuckerberg.

Q: What is the capital of Paraguay?

A: Asunción.

Q: What is the smallest planet in the solar system?

A: Mercury.

Q: What is the capital of Uganda?

A: Kampala.

Q: What is the main function of red blood cells?

A: Carry oxygen.

Q: What is the capital of Romania?

A: Bucharest.

Q: Who is known as the Father of Modern Physics?

A: Albert Einstein.

Q: What is the capital of Bulgaria?

A: Sofia.

Q: What is the study of the Earth's structure called?

A: Geology.

Q: What is the capital of Cambodia?

A: Phnom Penh.

Q: What is the largest gland in the human body?

A: Liver.

Q: What is the capital of Cyprus?

A: Nicosia.

Q: Who discovered that the Earth revolves around the Sun?

A: Nicolaus Copernicus.

Q: What is the capital of Georgia (country)?

A: Tbilisi.

Q: What is the process of liquid changing into gas called?

A: Evaporation.

Q: What is the capital of Kazakhstan?

A: Astana.

Q: Who is known as the Father of the Nation in India?

A: Mahatma Gandhi.

Q: What is the capital of Serbia?

A: Belgrade.

Q: What part of the plant conducts photosynthesis?

A: Leaf.

Q: What is the capital of Myanmar?

A: Naypyidaw.

Q: Who discovered the telephone?

A: Alexander Graham Bell.

Q: What is the capital of Slovakia?

A: Bratislava.

Q: What is the speed of light?

A: About 300,000 km per second.

Q: What is the capital of Yemen?

A: Sana'a.

Q: What is the study of the human mind called?

A: Psychology.

Q: What is the capital of Oman?

A: Muscat.

Q: What is the main gas in Earth's atmosphere?

A: Nitrogen.

Q: What is the capital of Uzbekistan?

A: Tashkent.

Q: What is the study of insects called?

A: Entomology.

Q: What is the capital of Laos?

A: Vientiane.

Q: Who invented the steam engine?

A: James Watt.

Q: What is the capital of Bosnia and Herzegovina?

A: Sarajevo.

Q: What is the largest ocean on Earth?

A: Pacific Ocean.

Q: What is the capital of Malawi?

A: Lilongwe.

Q: What is the process of water movement through a plant called?

A: Transpiration.

Q: What is the capital of Zambia?

A: Lusaka.

Q: What is the study of living things called?

A: Biology.

Q: What is the capital of Namibia?

A: Windhoek.

Q: Who proposed the laws of planetary motion?

A: Johannes Kepler.

Q: What is the capital of Nepal?

A: Kathmandu.

Q: What is the capital of Tanzania?

A: Dodoma.

Q: Who invented the microscope?

A: Zacharias Janssen.

Q: What is the capital of Tunisia?

A: Tunis.

Q: What is the main gas responsible for global warming?

A: Carbon dioxide.

Q: What is the capital of Albania?

A: Tirana.

Q: Who was the first person to calculate the circumference of Earth?

A: Eratosthenes.

Q: What is the capital of Armenia?

A: Yerevan.

Q: What is the study of the universe called?

A: Cosmology.

Q: What is the capital of Bahrain?

A: Manama.

Q: Who discovered Pluto?

A: Clyde Tombaugh — in 1930.

Q: What is the capital of Latvia?

A: Riga.

Q: What is the world's largest rainforest?

A: Amazon Rainforest.

Q: What is the capital of Lithuania?

A: Vilnius.

Q: What is the process by which plants absorb water through roots?

A: Osmosis.

Q: What is the capital of Estonia?

A: Tallinn.

Q: Who discovered the neutron?

A: James Chadwick.

Q: What is the capital of Slovenia?

A: Ljubljana.

Q: What is the study of rocks called?

A: Petrology.

Q: What is the capital of Luxembourg?

A: Luxembourg City.

Q: Who invented dynamite?

A: Alfred Nobel.

Q: What is the capital of Montenegro?

A: Podgorica.

Q: What is the study of fossils called?

A: Paleontology.

Q: What is the capital of Malta?

A: Valletta.

Q: Who discovered radioactivity?

A: Henri Becquerel.

Q: What is the capital of North Macedonia?

A: Skopje.

Q: What is the main component of natural gas?

A: Methane.

Q: What is the capital of Kosovo?

A: Pristina.

Q: Who proposed the heliocentric model of the solar system?

A: Nicolaus Copernicus.

Q: What is the capital of Moldova?

A: Chişinău.

Q: What is the study of the nervous system called?

A: Neurology.

Q: What is the capital of Qatar?

A: Doha.

Q: Who invented the first mechanical clock?

A: Liang Lingzan (China).

Q: What is the capital of Kuwait?

A: Kuwait City.

Q: What is the study of fish called?

A: Ichthyology.

Q: What is the capital of Costa Rica?

A: San José.

Q: Who is the founder of Tesla Motors?

A: Elon Musk.

Q: What is the capital of Panama?

A: Panama City.

Q: What is the largest island in the world?

A: Greenland.

Q: What is the capital of Dominican Republic?

A: Santo Domingo.

Q: Who invented gunpowder?

A: Chinese alchemists.

Q: What is the capital of Jamaica?

A: Kingston.

Q: What is the study of human societies called?

A: Sociology.

Q: What is the capital of Haiti?

A: Port-au-Prince.

Q: Who invented the first camera?

A: Joseph Nicéphore Niépce.

Q: What is the capital of Guatemala?

A: Guatemala City.

Q: What is the study of the atmosphere called?

A: Meteorology.

Q: What is the capital of Honduras?

A: Tegucigalpa.

Q: Who proposed the atomic theory?

A: John Dalton.

Q: What is the capital of Nicaragua?

A: Managua.

Q: What is the study of earthquakes called?

A: Seismology.

Q: What is the capital of El Salvador?

A: San Salvador.

Q: Who invented paper money?

A: The Chinese — during the Tang Dynasty.

Q: What is the capital of Uruguay?

A: Montevideo.

Q: What is the study of oceans called?

A: Oceanography.

Q: What is the capital of Paraguay?

A: Asunción.

Q: Who invented the compass?

A: Chinese inventors.

Q: What is the capital of Bolivia?

A: Sucre (constitutional), La Paz (administrative).

Q: What is the study of diseases called?

A: Pathology.

Q: What is the capital of Ecuador?

A: Quito.

Q: Who developed the periodic table?

A: Dmitri Mendeleev.

Q: What is the capital of Chile?

A: Santiago.

Q: What is the study of cells called?

A: Cytology.

Q: What is the capital of Peru?

A: Lima.

Q: Who discovered insulin?

A: Frederick Banting and Charles Best.

Q: What is the capital of Argentina?

A: Buenos Aires.

Q: What is the study of ancient human life called?

A: Archaeology.

Q: What is the capital of Brazil?

A: Brasília.

Q: Who proposed the theory of evolution by natural selection?

A: Charles Darwin.

Q: What is the capital of Colombia?

A: Bogotá.

Q: What is the study of fungi called?

A: Mycology.

Q: What is the capital of Venezuela?

A: Caracas.

Q: Who invented television?

A: John Logie Baird.

Q: What is the capital of Guyana?

A: Georgetown.

Q: What is the study of birds called?

A: Ornithology.

Q: What is the capital of Suriname?

A: Paramaribo.

Q: Who discovered oxygen?

A: Joseph Priestley.

Q: What is the capital of French Guiana?

A: Cayenne.

Q: What is the study of the moon called?

A: Selenology.

Q: What is the capital of Iceland?

A: Reykjavik.

Q: Who discovered the circulation of blood?

A: William Harvey.

Q: What is the capital of New Zealand?

A: Wellington.

Q: What is the study of languages called?

A: Linguistics.

Q: What is the capital of Fiji?

A: Suva.

Q: Who discovered Pluto's moon, Charon?

A: James Christy.

Q: What is the capital of Papua New Guinea?

A: Port Moresby.

Q: What is the study of ancient writings called?

A: Palaeography.

Q: What is the capital of Australia?

A: Canberra.

Q: Who discovered the law of buoyancy?

A: Archimedes.

Q: What is the capital of the USA?

A: Washington, D.C.

Q: What is the study of population called?

A: Demography.

Q: What is the capital of Canada?

A: Ottawa.

Q: Who discovered DNA structure?

A: James Watson and Francis Crick.

Q: What is the capital of the United Kingdom?

A: London.

Q: What is the study of sound called?

A: Acoustics.

Q: What is the capital of France?

A: Paris.

Q: Who discovered penicillin?

A: Alexander Fleming.

Q: What is the capital of Germany?

A: Berlin.

Q: What is the study of light called?

A: Optics.

Q: What is the capital of Italy?

A: Rome.

Q: Who developed the theory of relativity?

A: Albert Einstein — reshaped modern physics.
